

# A New American Rhododendron

*R. carolinianum*

Specimen plant supplied by Highlands Nursery. Flowers clear pink without the slightest tinge of magenta.

# A Splendid American Conifer

*Abies fraseri, True Fraser's Fir*

Specimen Fraser's Fir on Grounds of Highlands Nursery

# *Abies fraseri*

## *THE TRUE FRASER'S FIR*

---

THE northern species, *Abies balsamea*, is almost worthless in any but the latitude of middle and northern Maine, as it becomes "leggy," thin, and is short-lived.

Fraser's Fir, however, is a distinct species from the highest peaks of the Carolina Mountains, and makes a perfect specimen lawn and screen tree, with dark green, thick-set foliage (*blue underneath*) and compact, pyramidal habit. It is one of the choicest of all American conifers of the Fir section.

### *PRICES OF SPECIMEN TREES AT BOXFORD NURSERIES*

	Each	Per 10	Per 100
6 to 12 in. . . . .	\$0 20	\$1 25	\$10 00
1 to 1½ ft. . . . .	30	2 00	12 50
1½ to 2 ft. . . . .	60	4 00	37 50
2 to 3 ft. . . . .	1 50	10 00	90 00
3 to 4 ft. . . . .	2 50	20 00	

Extra specimens, with ball, and of perfect shape, 6 to 8 feet, at \$6 to \$8 each; larger sizes, \$10 to \$15 each.

# Rhododendron carolinianum

*A new American species*  
**Clear Pink. Absolutely Hardy**

---

THE smallest Alleghanian species; though wild, it attains a height of 15 feet and is wide-spreading. Leaves dark green, usually blunt and narrow, covered with rusty dots below, much smaller than either maximum or catawbiense. Flower-clusters appear in greatest profusion in June, covering the plant with a rose-colored mantle. Fine for rocky slopes or hillsides, standing exposure unusually well, and invaluable as a single specimen or for massing with the other species.

Until this year we have been sending this beautiful and rare species out under the name of *punctatum*. Professor Sargent has recently called attention to the fact that it is a distinct species from the *punctatum*, differing in time of bloom, with more showy and profuse flowers, and making a much larger and finer plant than the true *punctatum*.

It is now known as **Rhododendron carolinianum**, being described and named by Alfred Rehder, Arnold Arboretum, Jamaica Plain, Mass.

### *Sizes and Prices f.o.b. Boxford Nursery*

		Each	Per 10
9 to 12 in.	: . .	\$0 75	\$6 00
9 to 12 in., clumps	: . .	1 50	12 50
